

**W**hen Donald Ramsell founded Ramsell, Armamentos & Klis, LLC in 1986, DUI defense attorneys didn't exist. But Ramsell realized that because DUI laws are strictly enforced and carry steep penalties, people need attorneys with expertise in the field. Ramsell is such an expert, and his firm has become synonymous with DUI defense.

**LEAVING NO STONE UNTURNED** With Ramsell, Armamentos & Klis, clients are assured of a complete defense. "Our clients hire us because we have the skill and confidence they need when it comes to DUI defense," says Ramsell. The attorneys investigate the testing procedures used at the scene and at the police station, the training of officers involved, the weather, the condition of the road, signage, lighting, and more. The firm also employs scientific experts to bolster its clients' defense.

**A SCIENTIFIC APPROACH** In addition to their investigative expertise, Ramsell and

the firm's other attorneys are on the leading edge of forensic defense in blood, breath, and urine testing for alcohol and drugs. All of the firm's attorneys have completed a federally approved

## STRENGTH THROUGH KNOWLEDGE.

program in field sobriety training, the same courses police officers take. Over the years they have uncovered improper Breathalyzer procedures, falsification of results, and errors and malfunctions in breath machines.

**NOT JUST A CLIENT** Armed with this specialized training, the attorneys of Ramsell, Armamentos & Klis never forget that they are representing honest, decent people. "In life," says Ramsell, "sometimes bad things happen to good people." The attorneys painstakingly present to the judge and prosecutor the client's background, his or her law-abiding lifestyle and valuable role in the

family, and other important factors to secure a favorable outcome.

**A SUPER LAWYER'S CREDENTIALS** Donald Ramsell is the only attorney in Illinois to pass the National College for DUI Defense's Board Certifications as a DUI defense attorney, and he is the only Illinois DUI defense lawyer in U.S. history to argue a DUI case before the U.S. Supreme Court. His groundbreaking research into breath-testing instruments and procedures has called thousands of DUI convictions into question. Ramsell has lectured nationwide on the art of DUI defense, published numerous articles, and his firm has been featured on television and in newspapers and magazines around the world. It's no surprise that Donald Ramsell is once again being honored as an Illinois Super Lawyer.
